Day 2 | MEXICO CITY (Sunday, March 22, 2026)

After the breakfast at our hotel, we will depart for a city tour of Mexico City. Mexico City, which was founded by the Aztecs in the 1300s on Lake Texaco, one of the 5 interconnected lakes and the largest, and served as the capital of the Mexican Empire until the 15th century, is the center of modern art and architecture, politics, culture, as well as Aztec civilization and ancient times. It is also the center of the country in terms of education and finance. “Great Tenochtitlan” during the Aztecs; “respectable and noble imperial city” during the Spanish colonial period; Mexico City, which has been awarded different names such as the "city of palaces" with its abundance of ostentatious houses and buildings, has gained the title of a dizzying metropolis with its population of 20 million today.

During our city tour, Zocalo Square, which has been used for different purposes in the historical process from the Aztecs civilization to today. Sometimes hosts the inquisition court and sometimes peddlers, but is considered the brain of colonial history today, the Metropolitan Cathedral, which has the distinction of being the largest and oldest cathedral in the Americas, The National Palace, whose architectural structure has changed little since the Aztecs are among the places we will see. We will return to the hotel after city tour and in the afternoon, we will have free time to explore Mexico City. Overnight at our hotel.

Day 3 | MEXICO CITY (Monday, March 23, 2026)

After the breakfast at our hotel, you will have free time to explore the city sight, or you can join alternatively to the Teotihuacan Pyramids tour. During this tour, we will see the largest MESO American city of the time, reflecting the social and cultural heritage of the Aztecs. La Calzada de los Muertos, the Road of the Dead, on the south-north axis passing through the center of the city, which was arranged according to the classical architectural structure of the Aztecs, served as a ceremonial road. It is located at the southern end of the road to the Dead "Moon Pyramid - Piramide de la Luna". The two sides of the road are surrounded by platforms of the Moon and the remains of different structures. While its northern end is yet to be discovered, at its eastern end is the gigantic "Pyramid of the sun - "La Piramide del Sol".

The mysterious Teotihuacanda, which is on the UNESCO World Heritage List, who was founded by and why it was suddenly abandoned, has a mythological significance in Aztec existence stories. Rumor has it that in the beginning there was darkness and silence, so all the Gods got together and lit a big bonfire. For the creation of the Sun and the Moon, 2 Gods who were sacrificed had to jump into the fire. The first god to jump into the fire was the sun, the second god was the moon - when the moon and the sun did not start to rotate, all the gods threw themselves into the fire. Thus, the Sun and Moon began to rotate. The name of the Sun and Moon Pyramids in Teotihuacan is based on this story. Could it be true to you - why not? On this platform, we will also see the Quetzalcoatl Temple, the Butterfly Palace, the Jaguar Temple. We will return to the hotel after the tour. Overnight at our hotel.

Chichen Itza, which is on the List of the New 7 Wonders of the World and also on the UNESCO World Heritage List, has the distinction of being an ancient city with huge pyramids covering an area of 300 hectares. Chichen Itza is a Maya city of Itza, founded in the pre-Columbian era, located between Valladolid and Mérida in Mexico's Yucatán Peninsula. It is known that between the 4th and 10th centuries AD, when the Maya Civilization was at its strongest, this place was also considered a religious center of the same power. Afterwards, the Toltecs took this city from the Mayans and the Mayans remained as tribes living in the mountains until the end of the 17th century. Chichen Itza means "The Mouth of the Well of the Itzas" in the Mayan language, and as can be understood from this, Itza indicates the existence of another indigenous tribe. During our tour, apart from the pyramids in Chichen Itza, the observatory called Caracol in the shape of a snail, which is the oldest structure of the ruins; The sacred well where the bodies sacrificed to the rain god ChaacMoola are thought to be thrown is located in the Cenote.
